## **Message from the President**

Linda Lieser—972-896-5905, [linda.lieser@pisd.edu](mailto:linda.lieser@pisd.edu)

Dear Ladies,

What a lovely Installation Dinner we had at the Chocolate Angel last week. I was so happy to see so many attend. Diane Apprill, once again, managed to provide us with a wonderful evening. It was fun to visit with all the members, and some new members as well. The food was great and the tables were so pretty. A big thank you goes to each of the women who helped with the table arrangements. I love my watering can with the fresh flowers in it. Our new Board members were installed with a really nice program. Thank you to Sherry Coleman who helped to provide the ideas and keys for the presentation of officers.

Our Board Members Dinner will be held at my home on **June 12<sup>th</sup> at 7:00 PM**. This dinner will be the time when the current officers will pass down their notebooks, etc. and job descriptions to our newly appointed officers. The current officers will be bringing a favorite dish to share. I will provide a meat dish, as well as wine and soft drinks. Our new Board members will be asked to just bring their smiles! It is very important that you attend this dinner, especially if you are a new Board member. Please **RSVP by June 4<sup>th</sup>**, as I will be out of town until June 10<sup>th</sup>, and would like to plan ahead.

Thanks again for allowing me to represent you as President for two fabulous years!

## **1<sup>st</sup> Vice President – Membership**

Shannon Martin—214-725-0089, [shannonmartin3@gmail.com](mailto:shannonmartin3@gmail.com)

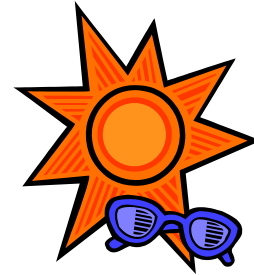

Thank you for allowing me to be your First VP of Membership for the Forest Creek Woman's Club this past year. It was wonderful to meet new friends and neighbors. We have such a wonderful club and it is only getting better. Please tell your neighbors about us. Start looking for information on joining next season's Woman's Club in August. Please let the new First VP of Membership, Diana Hueter, know if new people move onto your street this summer. Have a safe and happy summer!

**2nd Vice President—Programs**

Diane Apprill—972-618-2412, [daprill@aol.com](mailto:dapprill@aol.com)

Ladies, thanks for supporting the FCWC by attending another year of meetings and functions. It was a fast and furious year at our home, and I know at many of yours as well! With all of the obligations everyone has, it was truly a great turnout for so many of the meetings this year, and I thank you for taking the time to come when you could! From the first meeting at The Conservatory (and photography session donated by Lauren Vicars, benefiting Breast Cancer), the October meeting with the Mind of a Champion at my home, to the Spectacular Shopping Showcase at Sherry Craig's, AND the stunning ending, with the Tour of Homes (thank you again to Marsha Schwartz, Kristie Towers, Jaye Heil and Denise Hogan). January brought our Handwriting Analysis with Sylvia Tooker and semi-guest, Son of Sam, followed by a tour of the new Carpenter Recreation Center, CPR, and a great Valentine's celebration hosted at the Vokolek's home. March was our Book Interpretation on Out of Africa followed in April by Internet Security guest speakers Phil Pollacia and Detectives Minton and Neal. Thanks for scaring us! I think the very best of the year was our final celebration at Chocolate Angel. Thank you to everyone who took time out of their busy calendar (and especially to my husband Phil for letting me come and play with my friends on his 60th birthday) to celebrate old friendships, and welcome in the new ones. Because, when it comes right down to it...friendship is what this whole thing is all about! I am so looking forward to next year!

I would also like to thank Linda Lieser for bestowing the President's Award on me. I was truly flattered, and appreciate your thoughtfulness!

## Plano Police Department Forgery/Financial Crimes Unit

Credit Card Abuse, ID Theft & Checks

Detectives Neal & Minton

ID Theft defined:

Poss./Use of Identifying information PC 32.51: "A person commits an offense if the person, with the intent to harm or defraud another, obtains, possesses, transfers or uses an item of 1) ID Info of another person without the other persons consent"; 2) deceased person... 3) info... child younger than 18...

Penalty Groups for # of pieces of identifying information:

0 – 5 pieces	= SJF
5 – 10 pieces	= F3
10 – 50 pieces	= F2
50+ pieces	= F1

Do you still carry checks?

**DON'T! If only one check is stolen or compromised, hundreds, or even thousands of forged checks can be reproduced. Additionally, some of your personal information (full name, address, in some cases your phone number and driver's license number) are made readily available to fraudsters. Only put minimal information on your checking accounts (name and address). Be selective where you write and how you send your checks.**

What do you need to obtain credit?? (all the info's on your check!!)

**DON'T** put your DL or DOB on your checks if you still have them.

Credit Card Abuse defined:

Credit Card Abuse PC 32.31: "A person commits an offense if: 1) w/intent to obtain a benefit fraudulently he presents or uses a credit card or debit card w/knowledge that: A) the card whether or not expired, has not been issued to him and is not used w/the effective consent of the cardholder; or B) the card has expired or has been revoked, cancelled"; 2) to obtain a benefit he uses a fictitious credit or debit card or the pretended # or description of a fictitious card"... steals, receives known stolen, sells, or buys known stolen or card not his...

So how'd they get your information?

There are various ways to obtain your personal information, such as: the internet (probably the most common today), stealing mail, "dumpster diving" - taking your trash after it has been thrown out, social engineering (calling up and pretending to be a bank, credit company [from information they might have stolen from your mail or trash]), or things people post on social networking sites (Facebook, My Space, etc...).

What was the point of compromise (POC)?

We try to determine places unusual or out of the ordinary you used your card; or we will request you provide your detailed statements (past 3 months at least) to law enforcement so we can compare to other possible victims for a pattern of potential compromise.

What if you don't know the POC? Sometimes you just don't know... RFID chips in Credit Cards are BAD!!! You DO NOT want a Credit Card w/a RFID Chip- take it back; microwave it for 1-2 seconds to short it out.

Don't think this could happen here?

You're right, we haven't seen many—if any—of these types of cases here (speaking to the RFID chips).

What about this? (An image of a skimmer on a gas pump was shown.)

Do you use your PIN #? **DON'T!!** Use the credit feature only at gas pumps. Skimmers will read the entire magstrip and a hidden pin hole camera will record the numbers you press for your PIN. In some instances, the devices used will wirelessly send the information via Bluetooth to the suspect sitting in the parking lot.

Try not to lose sight of your credit card at restaurants or other locations...

Mail...

**NEVER** mail outgoing mail from the mailbox at your residence (“**come-steal-me flag**”); **NEVER** leave mail in your mailbox after it’s been delivered.

Get a PO Box, preferably in a different zip code and have your bills go to this PO

box. Added security when using credit cards. Utilize a Postal Vault (or similar product- <http://www.postalvault.com/>). Drop outgoing mail inside the drop box IN the Post Office.

Shred EVERYTHING w/a Cross-Cut Shredder! If it isn’t a cross-cut shredder, the individual pieces can be taped back together to make a full document.

# MONT-MARIE SKIN CARE

13450 Inwood Road, Suite 400 Dallas, Texas 75244

We invite you to a wonderful experience in advance skin care. Look no further than Mont-Marie Skin Care. After 45 years of intense research conducted by an Aesthetician and a biomedical scientist, we have developed a unique skin care system designed to reveal healthier skin. By studying the chemistry of the body, we have developed a product that produces results and is competitively priced. Our state of the art skin care system is designed to balance the skin to restore its normal tone and condition.

**Automatic Facial Lifting:** The Non-Surgical face lifting equipment is an electronic device that helps rejuvenate facial muscles and skin tone by reducing unsightly skin wrinkles around the eyes, mouth, forehead, neck and cheeks. It supplies computer-controlled electro-stimulation signals to the wrinkled part of the skin. The aesthetician applies treatment by using two probes. Then according to the degree of the wrinkles, the aesthetician can set a highly precise adjustment to the type of signal, frequency range and the strength of current required. After finishing the treatment the skin tone is revitalized and the circulation is stimulated to maintain a proper balance of sebum and moisture in the skin.

It gently stimulates the muscles in your face and neck areas you may feel have lost youthful resilience. Our facial procedure is very gentle. There is no pain and no uncomfortable pressure... just the soft touch of cotton tipped probes. Your muscles will feel tighter and stronger. Your skin will glow and appear to keep lifting 24hours after each facial procedure.

**Even after just one facial procedure, you will notice the difference.**

**The Benefits:** Skin tone and texture, Rejuvenated complexion, glowing skin, smoothed/ refined sagging skin, smoothed/refined sagging muscles, face/neck toned and lifted.
